

Required Disclosure to Learners

This nursing continuing professional development activity was approved by Colorado Nurses Association, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation. The criteria for being awarded the 1.00 contact hour for this course includes: completion of a course evaluation form and successful completion of a post-test with a score of $\geq 80\%$. The expiration date for this activity is March 29, 2028.

No one with the ability to control the content of this activity has a relevant financial relationship with an ineligible company.

Required AI Disclosure to Learners

AI Disclosure & Transparency Statement: [REDACTED] utilizes **the latest versions available of Google Gemini** to assist in the organization of clinician-developed course curriculum, along with course videos and assessments. This technology is used as an adjunct to enhance the design and relevance of our curriculum.

Human Verification: All final materials, have been reviewed, edited, and validated by named [REDACTED] curriculum developers and clinician advisors to ensure academic accuracy and pedagogical alignment.

Independence: [REDACTED] maintains full control over all educational decisions. This activity is free from commercial bias; AI tools were not influenced by advertisers or ineligible companies. All prompts and outputs are processed within [REDACTED] secure environment and are not stored in external or public databases.

Required Disclosure for AI Simulations

Our simulations integrate advanced voice AI and large language models to provide real-time conversational practice and communication analysis. These tools are specifically designed to help you refine the use of best practice communication models; they are not intended to assess clinical knowledge or provide medical recommendations. While [REDACTED] performs weekly audits to ensure high reliability, users should remain aware of the potential for AI-generated inaccuracies, as final responsibility for all clinical communication decisions rests with the healthcare professional. For the purpose of awarding continuing education credit, performance on the simulations are not taken into account, only participation and completion of the simulations is required. Your privacy is central to our design: sessions are identified by encrypted IDs, and while transcripts are stored securely for 90 days to verify credit completion and support quality auditing, no personally identifiable information (PII) or protected health information (PHI) is ever used to train external AI models.
